

i have 3 apples, i eat 1, i give 1 away, i buy 4 more, how many apples do i have? show your reasoning

⊠ Thought for 1 second ∨

We need answer simple arithmetic. Need show reasoning. Let's parse: start 3 apples, eat 1 (so 2), give 1 away (so 1), buy 4 more (so 5). Answer 5. Need maybe mention each step. final concise.

Start with 3 apples.

- Eat 1: $3 - 1 = 2$
- Give 1 away: $2 - 1 = 1$
- Buy 4 more: $1 + 4 = 5$

You have **5 apples**.
